

## MEACO 12L-AH

# Dehumidifier

12L

**'Works best in flats through  
to three bedroom houses  
to remove excess moisture  
from the air and prevent  
condensation, mould and  
damp issues'**

# MEACO 12L-AH DEHUMIDIFIER

The Meaco 12L-AH is a new 12 litre compressor dehumidifier for 2016 offering a stylish choice for those who need a dehumidifier but appreciate good design.

It stands out from other dehumidifiers thanks to its cuboid like design with a double sided air intake topped off with a circular, control panel complete with large, colour changing digits.

Externally the look of the Meaco 12L-AH might be different but internally it has the same quality components upon which we have built our reputation for solid, reliable dehumidifiers. It will deal with mould, condensation and damp in apartments through to 3 bedroom houses.

## CHEAP TO RUN

Power consumption is rated at just 183 watts at 20°C and 60%rh which would be typical of conditions in a British home. At these conditions the Meaco 12L-AH, based on an electricity charge of 15.32pence/kWh, would cost you just 2.78pence/hour to run.

It has a large digital display with colour changing digits (depending on how damp the air is) to show you the current room readings and to set your target relative humidity, a 1 - 24 hour off timer and a double sided air inlet with combined dust and charcoal filter.

When the relative humidity in your home is below the mould growth level the display on the Meaco 12L-AH will display the readings in blue, outside of this comfort zone it will display the readings in red or green to warn you if your home is becoming too damp or too dry.

The dual air inlet has a double walled filter removing both dust particles and smells from the air thanks to its combined particle and charcoal filter.

## LARGE COLOUR CHANGING DISPLAY

## SPECIFICATIONS

Drying Capacity (Litres/24 Hours)	26.7°C - 60%rh	6 litres
	30.0°C - 80%rh	12 litres
Power Consumption (Watts)	20.0°C - 60%rh	183 watts
	26.7°C - 60%rh	190 watts
	30.0°C - 80%rh	235 watts
Air Flow (m³/hr)	120	
Auto restart	Yes	
Noise (dB)	≤45	
Tank Size	1.7 litres	
Timer	1-24 hour off timer	
Castors	Yes	
Temperature Range	+5°C/+38°C	
Relative Humidity Range	30% - 95%rh	
Refrigerant	R134a/100g	
Rated Voltage	220-240V/50Hz	
Dehumidifier Dimensions (mm - w x d x h)	255 x 245 x 495	
Box Dimensions (mm - w x d x h)	306 x 288 x 528	
Nett/Gross Weight (Kgs)	10.5/11Kgs	

## APPLICATIONS

Condensation

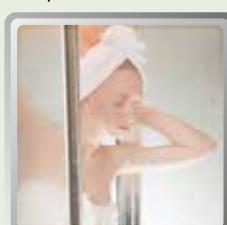

Mould

Damp

Laundry drying

Bathroom

Kitchen

Flats to 3 bedroom houses

Low running costs
